ABOUT US

Welcome to Orthorest, where we're on a mission to make your tootsies feel like they're walking on clouds. We know that life can be tough on your feet, whether you're a professional ballerina or just someone who's always on the move. That's why we're here to bring a little bit of quirky comfort to your every step. We're a footwear brand with a difference. Our footwears are crafted with love and a dash of unmatched comfort so you can show off your unique style while your feet stay happy and comfy. Our secret ingredient? A blend of high-quality materials and cutting-edge technology, designed to deliver the perfect balance of support and softness. At Orthorest, we are passionate about delivering the highest quality products to our customers. Our shoes are crafted with attention to detail, from the stitching to the materials used.

RELIEVE FOOT PAIN:

For those who suffer from foot conditions such as plantar fasciitis, arthritis, or general foot pain, wearing slippers with arch support and soft cushioning can help alleviate discomfort and reduce pressure on sensitive areas.

PREVENT SLIPS AND FALLS:

Many soft women slippers come with non-slip soles, providing extra grip on slippery surfaces like hardwood or tile floors. This can significantly reduce the risk of falls, especially for older adults or those with mobility issues.

MAINTAIN CLEANLINESS AND HYGIENE:

Wearing slippers indoors helps keep your home clean. By slipping into a pair of soft women slippers, you prevent dirt, dust, and other debris from being tracked into your living space, maintaining a healthier and cleaner home environment.

CHOOSING THE RIGHT PAIR OF SOFT WOMEN SLIPPERS

Material Look for slippers made from high-quality materials that provide long-lasting comfort. Memory foam, fleece, and wool are popular choices for their softness and ability to conform to your feet.
