

The Kings Bay

Rim Lock

<https://thekingsbay.com/>

Rim locks provide key access from the outside and often feature an internal knob or lever for easy exit. Many modern [rim lock](#) also include a snib or deadlock function, which allows the lock to be deadlocked from the inside, providing enhanced security. This feature prevents the lock from being opened with a key from the outside.

Life Size Statues

Crafted from various materials, including bronze, marble, and fiberglass, these statues are designed for both indoor and outdoor display. Durable materials ensure long-lived resistance to the elements, making them suitable for gardens, and other outdoor settings. Indoor **life size statues** can enhance the ambiance of entryways, lobbies, galleries, and even private residences.
